GOVERNMENT 5-STAR SAFETY RATINGS

Should ONLY be compared to other vehicles of similar size and weight.

Based on the risk of injury in a frontal impact. Should ONLY be compared to other vehicles of similar size and weight.

Actual results will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. The average new vehicle gets 28 MPG and costs \$9,500 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at \$3.50 per gallon. MPGe is miles per gasoline gallon equivalent. Vehicle emissions are a significant cause of climate change and smog.
