network availability. Evolving technology/cellular networks/vehicle capability may limit functionality

and prevent operation of connected features. Connected service excludes Wi-Fi hotspot.

more in fuel costs

Actual results will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. The average new vehicle gets 28 MPG and costs \$8,000 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at \$2.95 per gallon. MPGe is miles per gasoline gallon equivalent. Vehicle emissions are a significant cause of climate change and smog.
