\* Le système est compatible avec certaines plates-formes de téléphones intelligents. Service FordPass Connect™ requiert l'utilisation des modules de l'application pour en savoir plus. Le service de connectivité et les fonctions de commande connectées dépendent de la disponibilité d'un réseau AT&T compatible. L'évaluation de la technologie et des réseaux cellulaires peut avoir une incidence sur les caractéristiques fonctionnelles et leur disponibilité, ou sur la prestation continue de certaines fonctions, les empêchant de fonctionner. Des frais de message texte et de transmission de données s'appliquent.

Le modem FordPass Connect™ est actif et transmet les données du véhicule (comme les diagnostics) à Ford. Voyez les réglages à bord du véhicule pour connaître les options en matière de connectivité.
