Environmental Performance

These ratings are not directly comparable to the U.S. EPA/DOT light-duty vehicle label ratings. For information on how to compare, please see www.arb.ca.gov/ep_label.

Protect the environment. Choose vehicles with **higher ratings**:

Greenhouse Gas Rating (tailpipe only)

A horizontal bar representing the Greenhouse Gas Rating scale from A+ (Cleaner) to D. The bar is divided into segments: A+ (green), A (light green), B (yellow-green), C (yellow), and D (orange). A callout bubble with the letter 'D' points to the D segment.

Smog Rating (tailpipe only)

A horizontal bar representing the Smog Rating scale from A+ (Cleaner) to D. The bar is divided into segments: A+ (green), A (light green), B (yellow-green), C (yellow), and D (orange). A callout bubble with the letter 'B' points to the B segment.

Vehicle emissions are a primary contributor to climate change and smog. Ratings are determined by the California Air Resources Board based on this vehicle's measured emissions.
